Xenoblade chronicles 2 a real challenge

Applies to: Nintendo Switch Family, Nintendo Switch, Nintendo Switch Lite The information in this article can help you when you're on missions where you must defeat a certain enemy to clear but can't continue your mission after battle. Note: This bug has been fixed in the version 2.0.0 update that was made available to all Owners of Xenoblade Chronicles 2 at the start of the game on September 14, 2018. Apologies for any inconvenience this may have caused. For those players with version 1.5.2 update, an error has been identified. In missions where you must defeat a particular enemy to clear, if the final hit is a special art, chain attack, or sword combo, the game will not move on to the post-battle event, leaving you unable to continue your mission. This error has been confirmed in the following missions: Godfrey's Blade Quest [Flames of Justice] Perceval's Blade Quest [Failure and Success] Dagas's Blade Quest [Lost Kingdom] Praxis's Blade Quest [Blade-Sharp Memory] and related quest [Monster Quest 3] Perun's Blade Quest [Eternal's Blade Quest Blade Quest [Eternal's Blade Quest [Eternal Kingdom' Spirit] Adenine's Blade Quest [A Real Challenge] Floren's Blade Quest [Nature Boy] and related quest [Beguiling Charms] Herald's Blade Quest [The Calm and Blade Quest] The Storm] T-elos' Blade Quest [Lingering Resentment] Regular Quest [Mellica the Chorister] Regular Quest [The Riddle on the Wall] Updates the game to the latest version. If you choose not to upgrade beyond version 1.5.2, use an auto-attack or one-hit Art to defeat the right enemy. I am currently in chapter 6, I have just finished destroying the four seals and the mission says report to Zaman, but to my surprise he is not there, the search pointer disappears as well. Has anyone else faced this problem, or am I just too early for this search? How to complete Xenoblade Chronicles 2 A Real Challenge Side Quest From the start of the Xenoblade Chronicles 2 A Real Challenge mission, you'll face breaking several seal stones. The first four of them are in four different nations, so it will take a little travel. Let's start with the Earthstone found in Gormott.Xenoblade Chronicles 2 A Real Challenge: Sealstone of EarthFor this first stone, you are only told to remove the Earth's seal from a land of green forest. The land of green forest to which it refers is the province of Gormott. To break it, skip the trip to the upper left level area. It's on a ledge in the northern part of it. You can only reach it at low tide, so make sure it's right or go to an inn first. Xenoblade Chronicles 2 A Real Challenge: Sealstone of FireThis can be found in the section abandoned on the lower level of the Mordain Empire. It is located just off the Fourth Ridge Entrance.Xenoblade Chronicles 2 A Real Challenge: Sealstone of WaterFor east, go southeast southeast stomach in the Kingdom of Uraya. He's at Coralline Shrine. To access it, you need to break the breakable wall there. Xenoblade Chronicles 2 A Real Challenge: Sealstone of WindGo to Godsford Isle in the left-handed archipelago. It is located at the top of the island. To get to the top, you'll have to test your timing skills by jumping as you slide down from Lud Cloudway: Fonsett. There are a lot of enemies nearby that you may have to clear. Once you've broken the four sealing stones, report to Zaman at Anastatia's Inn in Theosoir only at night. Once this is done, the last four sealing stones are found in the spring of Xataris, on the central plain of Temperantia. Break those seal stones. With all eight facts, you'll face mini-boss Thanatobeast Andraz, a level 64 enemy. Defeating Andraz will allow you to complete Xenoblade Chronicles 2 A Real Challenge.Image Credit: Gamers Heroes English (United Kingdom) English (United States) Spanish (Latin America) (Latin America) (Latin America)
